DB: Second.

Vote: 3-0, Approved.

RRL: Motion to sign vouchers.

DB: Second.

Vote: 3-0, Approved.

### **66 Mendon Street, Decision Signing**

Wayne Goranson, applicant, appeared with Bill Halsing of Land Planning. The decision had been reviewed and Wayne had the driveway to Brook Street blocked off as requested. The decision states that the pavement must be removed by May 8, 2007 or before certificate of occupancy is obtained for salon.

RRL: Motion to sign amendment to decision for 66 Mendon Street Development Plan Modification.

DB: Second.

Vote: 3-0, Approved.

**Ron Trottier, Wrentham Road Informal Discussion**

Ronald Trottier appeared before the board to discuss the possibility of creating two lots on his family property of approximately 12 acres on Wrentham Road. The lot shape factor conformed to zoning guidelines. There is a permanent easement granted to New England Country Club for a potential future access road. Should the road be built there would be enough frontage for both lots to conform to zoning guidelines.

SJW advised the Board that basically, they were looking to create a back lot subdivision and he was looking for a Planning Board opinion. BJS questioned the agreement concerning the ownership and maintenance of the drainage easement. Mr. Trottier advised him that it was all spelled out in the agreement.

**Brookfield Estates Preliminary Subdivision and Water Resource Area Special Permit Determination**

Attorney Joseph Antonellis appeared the applicant's son, Kevin DiSimone. Attorney Antonellis outlined the proposed subdivision for the Board. The only waiver asked for was the changing of plans to 40 to 1 scale.

SJW asked about the Water Resource District. Attorney Antonellis indicated that they would not meet the threshold to require a water resource special permit. He did not have the figures, but Paul DiSimone had given him the information. The calculations will be presented to the Board at another time for their review.

SJW advised Attorney Antonellis that they should file a notice of intent with Conservation Commission so that the hearings would be concurrent with the definitive subdivision.

SJW suggested that a cluster development be considered. Attorney Antonellis answered that because of the areas where suitable perc's were found the lots need to be larger to accommodate the systems. BJS suggested a shared system, but Attorney Antonellis stated they wanted to stay away from shared systems with the subdivision.

SJW reminded Attorney Antonellis that the storm water regulations had been updated since Mr. DiSimone had been an applicant before the board, and he should make sure that he refers to the new regulations.

Don DiMartino comments were reviewed and they will try to configure the roadway at 9% if it is steep. And a "bear to plow". It is below the legal limit. The street is to be considered a lane which allows for a 12% grade. They will however, look at the engineering and see what can be done. Don DiMartino had also spoken with the applicant regarding the installation of a water line to be used for future access.

**Dunkin Donuts Noise Mitigation**

SJW scheduled people in 5 minute intervals to present their noise mitigation requests. BJS advised all present that they need only to state their name, address and mitigation completed or to be completed. SJW advised that she would require the social security numbers of the recipients as the money is considered taxable income. BJS let the people in the audience know that this \$40,000 in mitigation monies is all that will be available to residents and that Dunkin Donuts was very generous as they did not have to establish this fund but did so as part of being a good neighbor.
