### **Attachments**

Project Narrative (February 2025)

Locus Map (February 2025)

Wetland Delineation Letter & Data Forms (December 2024)

Abutters List & Notification (February 2025)

Notice of Intent Plan (February 2025)

Stormwater Report (February 2025)

## **Project Introduction and Overview**

This Notice of Intent (NOI) is being filed by the Bellingham DPW (the Applicant) in accordance with the Massachusetts Wetlands Protection Act (MAWPA) (M.G.L Chapter 131, Section 40), its implementing regulations (310 CMR 10.00) and the Town of Bellingham Wetlands Protections Bylaw (Bylaw).

The proposed project is the construction of an addition to the existing water treatment plan, paving, upgrades and maintenance to the existing lagoons, vegetation clearing and appurtenances. The vast majority of the work will be outside the Buffer Zone and Riverfront Area.

Work around the water treatment plant will include the removal of the existing fencing, vegetation clearing, the construction of the new water treatment extension, widening of the entrance, repaving, installation of a new fencing, utility connections and appurtenances. Work in this area is only in the Buffer Zone.

Work at the lagoons will include the vegetation clearing, site grading, upgrades and maintenance to the existing lagoons, removal of existing fencing, installation of new fencing and the construction of a graveled dewatering area. Work in this area is within the Buffer Zone and Riverfront Area.

## **Project Impacts and Mitigation**

### ***Water Treatment Plant:***

#### ***Buffer Zone:***

The only work proposed within the Buffer Zone is vegetation clearing, fence replacement and repaving. There is 3,200 sf of vegetation clearing within the Buffer Zone. There is 2,650 sf of repaving proposed within the Buffer Zone, an increase of 500 sf of paved surface. There is 1,000 sf of grading proposed. 110 lf of fencing to be removed and 330 lf of fencing to be installed. There is 80 lf of water main to be installed, all within the existing access drive or areas of proposed disturbance.

### ***Lagoons:***

#### ***Buffer Zone:***

The proposed work within the Buffer Zone will be predominantly within the Riverfront Area. The work will include 3,100 sf of vegetation clearing, 2,100 sf of site grading, the removal of 60 lf of fencing and installation of 200 lf of fencing and 350 sf of a new graveled dewatering area.

*Riverfront Area:*

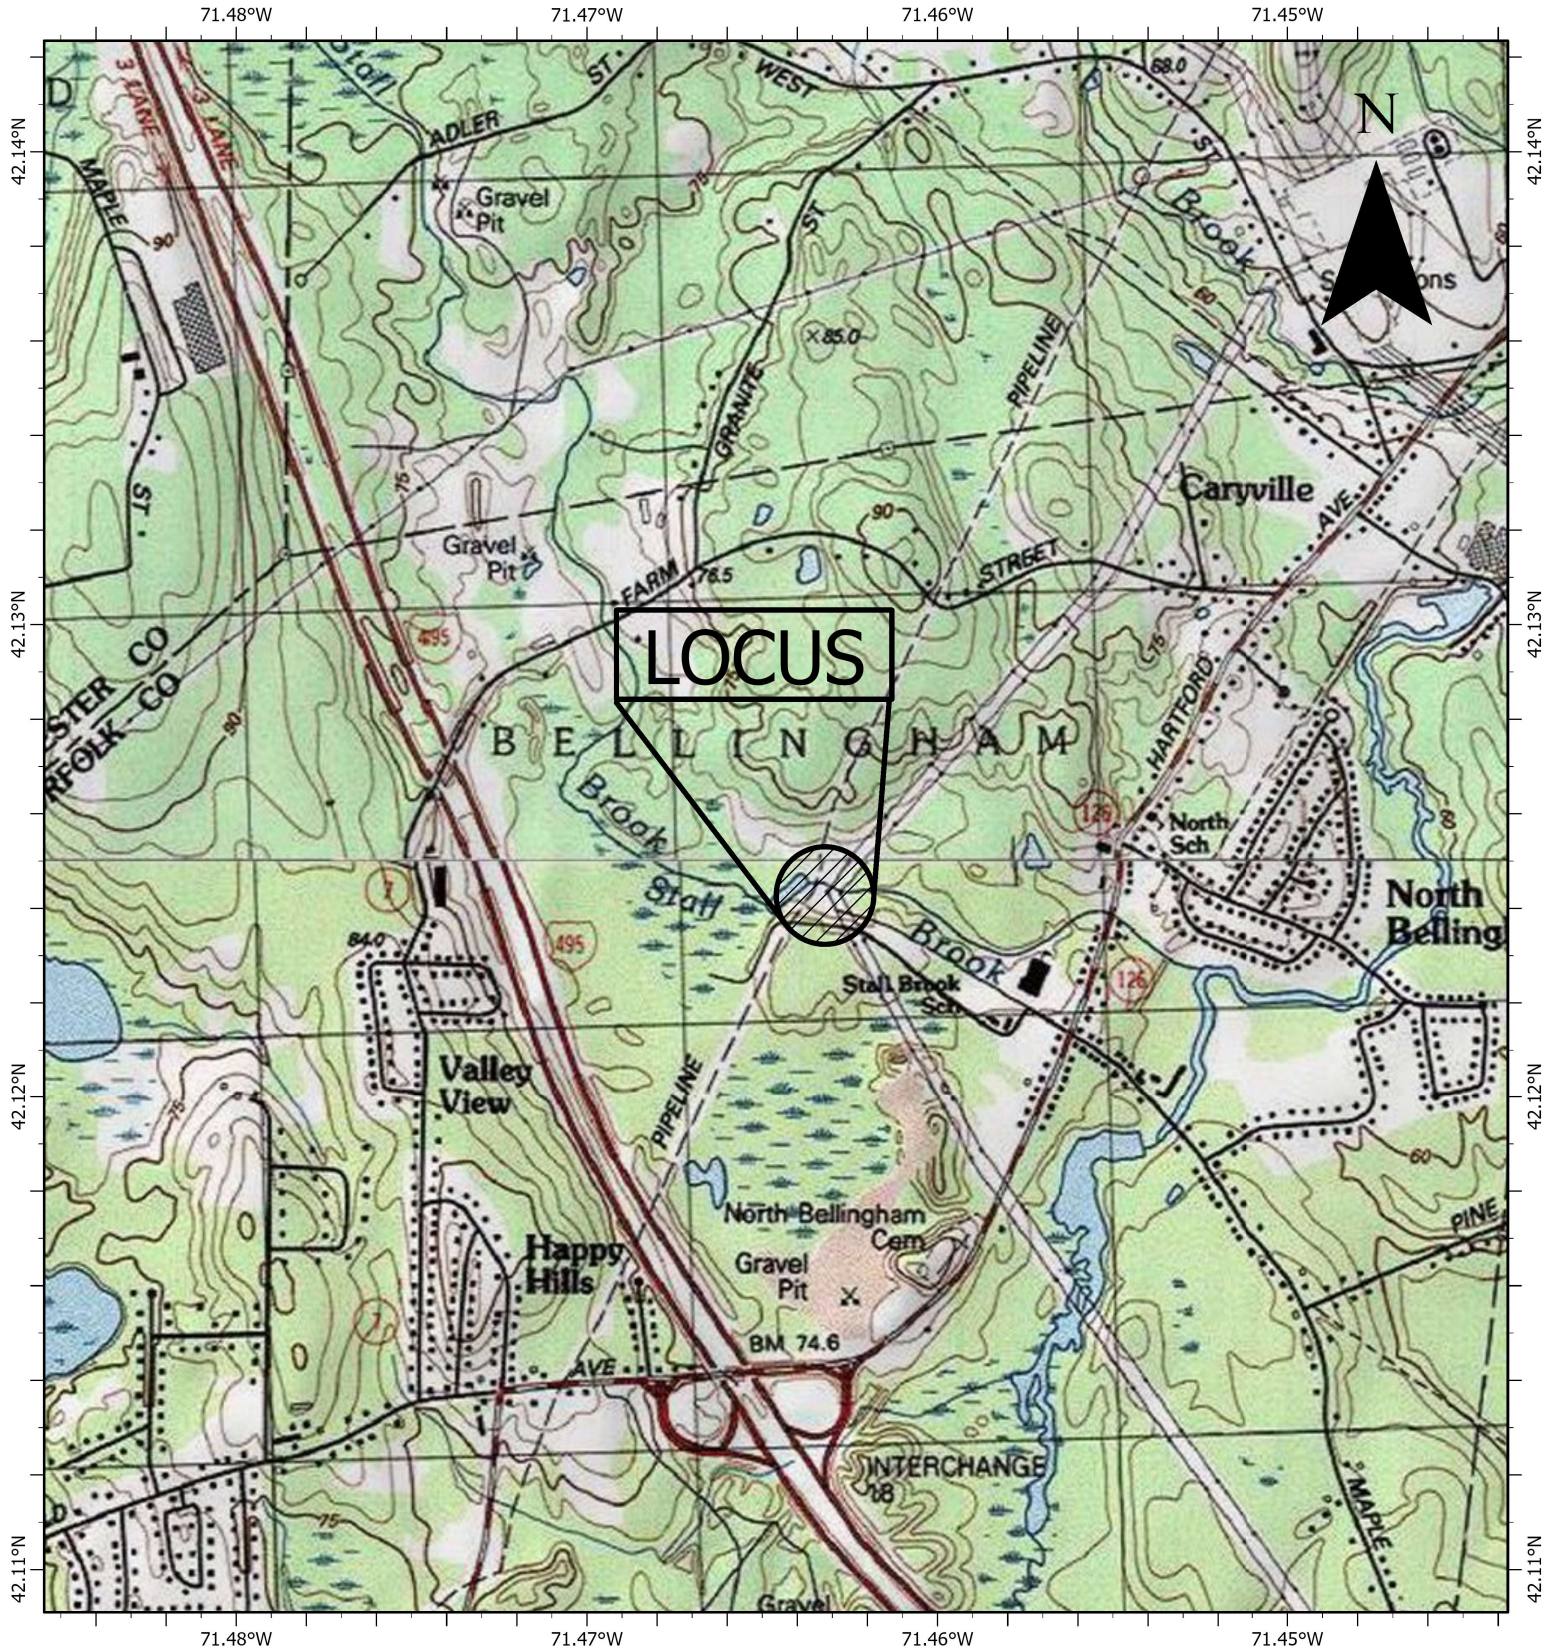

The proposed work in the Riverfront area should be exempt per 310 CMR 10.58(6)h. While the water going to the lagoons is clean and not considered wastewater, it is waste from the water treatment processes. The proposed work within the Riverfront Area will include vegetation clearing, site grading, and the removal and installation of fencing. This will impact 3,550 sf, all of which was historically disturbed, although portions of the disturbed area have revegetated.

*Erosion Controls:*

Erosion controls will be placed between all work and the resource areas, all trenching will be covered at the end of the work day.

Wetlands • Forestry • Permitting • Habitat Studies

December 16, 2024

Ms. Tara Hourihan  
Wright-Pierce  
2 Mount Royal Avenue, Suite 450  
Marlborough, MA 01752

Re: Wetland Delineation  
Hartford Avenue WTP/Bellingham

Dear Ms. Hourihan:

As requested, we have delineated the wetlands on the above-referenced site. The delineation was conducted on April 29 and December 9, 2024. The delineation was based on observations of the soils, the plant communities and hydrology. There was no snowcover at the time.

The edges of Bordering Vegetated Wetlands were delineated with blue flagging labeled AA1 to AA9, BB1 to BB7, C1 to C17 and D1 to D13. The AA, C and D-series wetlands are wooded. The BB series wetland is a pond with a wooded fringe. The adjacent uplands contain a well site, water treatment plant a utility right-of-way, treatment lagoons and forest.

Species which were observed to be dominant primarily in the wetlands include Duckweed, Jewelweed and Royal Fern. Several species are common in both the wetlands and uplands including Red Maple, European Buckthorn, Greenbrier, Highbush Blueberry and Sweet Pepperbush. Species abundant primarily in the uplands include Red Oak, White Oak, White Pine, Mapleleaf Viburnum, Witch-hazel, Canada Mayflower, Checkerberry, Lowbush Blueberry and upland sedges. The attached Bordering Vegetated Wetland Determination Forms provide greater detail on the vegetation, soil conditions and hydrological indicators.

The MassGIS MassMapper does not show any Estimated/Priority Habitat Areas or Certified Vernal Pools on the site.

The MassGIS MassMapper shows a 100-year Flood Zone along the pond. If work is proposed near the pond, your surveyor will need to determine its extent either based on topography or graphically as appropriate.

The delineation was based on features visually apparent and the regulations in place at the time. As you are aware the interpretation of the boundaries of wetlands can vary depending on many factors including the time of year, growth phase of vegetation, groundwater levels, soil conditions, weather, and other factors. As a result, no delineation can be considered definitive until it has been reviewed and verified by all of the relevant approving authorities.

If you have any questions in regards to this matter, please feel free to contact us.

Very truly yours,  
CARON ENVIRONMENTAL CONSULTING

By;

Charles E. Caron

# BORDERING VEGETATED WETLAND DETERMINATION FORM

Project/Site: Hartford Ave WTP City/Town: Bellingham Sampling Date: 04/29/2024

Applicant/Owner: Bellingham DPW Sampling Point or Zone: AA3-W

Investigator(s): Charles Caron Latitude/Longitude: 42.1239N/71.4645W

Soil Map Unit Name: Freetown Muck NWI or DEP Classification: PFO1

Are climatic/hydrologic conditions on the site typical for this time of year? Yes X No      (If no, explain in Remarks)

Are Vegetation No, Soil No, or Hydrology No significantly disturbed? (If yes, explain in Remarks)

Are Vegetation No, Soil No, or Hydrology No naturally problematic? (If yes, explain in Remarks)

**SUMMARY OF FINDINGS – Attach site map and photograph log showing sampling locations, transects, etc.**

Wetland vegetation criterion met?	Yes <u>X</u> No <u>    </u>	<b>Is the Sampled Area</b> Yes <u>X</u> No <u>    </u> <b>within a Wetland?</b>
Hydric Soils criterion met?	Yes <u>X</u> No <u>    </u>	
Wetlands hydrology present?	Yes <u>X</u> No <u>    </u>

**NOTIFICATION TO ABUTTERS UNDER THE  
MASSACHUSETTS WETLANDS PROTECTION ACT  
CHAPTER 131, SECTION 40  
AND**

**THE TOWN OF BELLINGHAM WETLANDS PROTECTION BY LAW**

In accordance with the second paragraph of Massachusetts General Laws Chapter 131, Section 40, and the Bellingham Wetlands Protection Bylaw, you are hereby notified of the following:

Bellingham, DPW has filed a  
(Applicant)

Notice of Intent / Abbreviated Notice of Intent with the Bellingham Conservation Commission for review of the following activity:

Description of Project:

The proposed project is the construction of an addition to the existing water treatment plant, paving,  
upgrades and maintenance to the existing lagoons, vegetation clearing and appurtenances

The location of the proposed activity is:

Assessors Map 13/13/13 Lot/Parcel 0005/010C/003A  
Street Address: 340 Hartford Avenue

Copies of the filing may be examined at the Bellingham Conservation Commission office during normal business hours (please call 508-657-2858) OR at the following:

Applicant or Representative Name: Caron Environmental Consulting, LLC

Address: 247 Bragg Hill Road, Westminister, MA 01473

Phone Number: (978) 944 2326

The public hearing will be held at the Bellingham Municipal Center, 10 Mechanic Street, Bellingham. Information on the date and time of the hearing may be directed to the Conservation Commission or the applicant's representative at the above numbers.

**NOTE:**

- Notice of the public hearing, including date, time and place:
- The public hearing notice will be published at least five (5) days in advance in the Woonsocket Call
- The public hearing notice will be posted at the Town Clerk's Office and on the town web site no less than forty-eight (48) hours in advance of the public hearing.
- The applicant may also contact the nearest Department of Environmental Protection Regional Office for more information about this application or the Wetlands Protection Act. To contact DEP, call Central Regional (508)-792-7650
