211 SOUTH MAIN STREET DEVELOPMENT PLAN APPROVAL AND STORMWATER MANAGEMENT PERMIT DECISION

RCV MAR 28 '25 AM8:19:4
BELLINGHAM TOWN CLERK

A. BACKGROUND

Applicant: Vasilios Alexopoulos
12 Treeland Drive
Walpole, MA 02081

Owner: Vasilios Alexopoulos
12 Treeland Drive
Walpole, MA 02081

Public Hearing: The Public Hearing opened December 12, 2024 at 7:00 PM. Notice for the public meeting was published in *The Milford Daily News* on November 28, 2024 and December 5, 2024. The Public Hearing was continued to February 13, 2025, February 27, 2025, and when the Public Hearing was closed on March 27, 2025.

Date of Vote: March 27, 2025

The Premises: The project, also referred to herein as the "Site", is proposed to be accessed by South Main Street, a public way, at 211 South Main Street. The project is located at Assessors Map 90-132, approximately 0.91+/- acres, in the Business-1 Zoning District.

The By-law §240-16 Development Plan Review, and §240-54 Stormwater Management

The Proposal: To construct an approximately 3,300 square foot automotive transmission repair business with associated improvements accessed by South Main Street.

The Proposal was documented with the following materials:

1. Application for Development Plan Review, dated November 21, 2024, including a narrative and project description.
2. Waiver Request, dated November 21, 2024.
3. Certificate of Ownership, dated November 21, 2024.
4. Certified Abutter's List, certified on November 12, 2024.
5. Plan Set entitled, "Permit Site Plan – 211 South Main Street", prepared by DGT Associates, dated November 21, 2024.
6. Plan entitled, "Subsurface Sewage Disposal System Plan", prepared by DGT Associates, dated November 21, 2024.
7. Stormwater Report, prepared by DGT Associates, dated November 21, 2024.
8. Plan entitled, "Landscape Planting Plan", prepared by DGT, dated December 11, 2024.
9. Peer Review Letter, prepared by CMG, dated February 11, 2025.
10. Cover Letter and Comment Response Letter, prepared by DGT Associates, dated February 25, 2025.
11. Construction Sequence, prepared by DGT Associates, dated February 25, 2025.
12. Plan Set entitled, "Permit Site Plan – 211 South Main Street", prepared by DGT Associates, revised February 25, 2025. (Approved Plans)
13. Plan entitled, "Landscape Planting Plan", prepared by DGT Associates, revised February 25, 2025.
14. Truck Maneuver Exhibit Plans, prepared by DGT Associates, dated February 25, 2025.
15. Plan entitled, "Sight Distance Exhibit Plan", prepared by DGT Associates, dated February 25, 2025.
16. Architectural Plans entitled, "Proposed Auto Garage – 211 South Main Street", prepared by SAH Design, LLC, dated February 27, 2025.
17. Stormwater Report, prepared by DGT Associates, revised February 25, 2025.
18. Peer Review Letter #2, prepared by CMG, dated March 4, 2025.
19. Other miscellaneous documents on file at the Planning Board offices.

B. DETERMINATIONS

Following its public hearing on the Applicant's proposal and requested relief, the Planning Board has made the following determinations:

1. The Applicant filed applications for new construction of a 3,300 s.f. automotive transmission repair business on 0.91 +/- acres of land known as 211 South Main Street, Assessors Map 90, Lot 132.
2. That the Site is not located within the Water Resource District.
3. In accordance with the §240-59 of the Bellingham Zoning Bylaws, the proposed use requires 11 paved parking spaces. The proposal provides 13 paved parking spaces, including 1 accessible space. The proposal meets the requirements set forth in Article X: Parking and Loading Requirements
4. The performance requirements of this By-Law (e.g. Article IX Environmental Controls, Article X Parking and Loading Requirements, Article XI Landscaping Requirements) have been met or a waiver has been requested and granted.
 - a) §240.49 Light and Glare: The applicant has requested a waiver from the §240-17.B.(1).(k) – Site Lighting in the Bellingham Zoning Bylaws. The proposed plans do not provide light poles within the paved parking area or along the site entrance. Exterior lighting will be accommodated using light fixtures attached to the building façade. As a condition of approval, the applicant will be required to submit a photometrics plan prior to construction to the Town Planner for review and approval. Any exterior building and parking lot lighting shall be consistent with “dark sky” standards, shielded and directed downward to maintain lighting on to the Site and shall comply with the Zoning By-law.
 - b) § 240.50 Air Quality: There will be no manufacturing within the proposed facility. The proposed uses do not involve emission of odorous gases in such quantities to be offensive and shall continue to adhere to the Zoning By-law.
 - c) §240.51 Hazardous Materials: No hazardous materials, as defined in this section, are proposed to be used or stored on Site.
 - d) §240.52 Vibration: The Applicant does not propose any use that produces vibration which is discernible to the human sense of feeling (except sound) at or beyond the boundaries of the premises for three minutes or more in any hour between 7:00 a.m. and 9:00 p.m. or for 30 seconds or more in any one hour between 9:00 p.m. and 7:00 a.m.

- e) §240.53 Electrical Disturbance: No electrical disturbance is proposed or will be permitted which adversely effects the operation of any equipment other than that of the creator of such disturbance.
 - f) §240.54 Stormwater Management: The stormwater management shown on the Plan and drainage analysis has been designed to meet the Stormwater Management Standards set by the Massachusetts Department of Environmental Protection and Bellingham Zoning By-laws. The standards include removing solids from the stormwater, reducing rates of runoff from the site, and recharging the groundwater.
 - g) §240.58 Noise: The use proposed was determined to not add noise concerns as all activities are conducted indoors or further conditioned herein.
 - h) §240.66-67 Landscape: The Site has been determined to be adequately landscaped per the Plan.
5. For the given location and type and extent of land use, the design of building form, building location, egress points, grading, and other elements of the development could not reasonably be altered to:
- a) improve pedestrian or vehicular safety within the site and egressing from it, as circulation has been reviewed by the Planning Board and emergency services and was deemed adequate;
 - b) reduce the visual intrusion of parking areas viewed from public ways or abutting premises, by preserving vegetative buffers, adding fencing, as well as landscaping added to priority areas;
 - c) reduce the volume of cut or fill and the Site has been graded to match the cuts and fills, as much as possible and it is not anticipated that an Earth Removal Special Permit will be required;
 - d) reduce the number of removed trees 8" trunk diameter and larger, as a the site's existing condition is predominantly cleared of vegetation;
 - e) reduce soil erosion; and reduce hazard or inconvenience to pedestrians from storm water flow and ponding by engineering the Site to be designed to comply with the DEP Stormwater Handbook and the Town of Bellingham Stormwater Regulations as well as the inclusion of a Stormwater Pollution Prevention Plan and Operation and Maintenance Plan consistent with the Town of Bellingham requirements.

- f) provide alternate access as emergency services has reviewed and approved the plan as proposed and deemed access to be adequate;
 - g) provide alternate utility service and drainage as the DPW Director has reviewed and approved the plan as proposed and demonstrated in the Stormwater Management Report;
 - h) The projected traffic generated from the proposal do not meet the threshold for a Traffic Impact Analysis, therefore, traffic impacts to the surrounding areas as a result of the proposal are minimal. The applicant has also prepared a Sight Distance Exhibit Plan (Document #15) to document the proposal will not affect traffic safety at the abutting intersections.
6. The Board finds that compliance with the conditions below are necessary to mitigate impacts related to the construction and occupancy of the project.

C. DECISION

Based on the above determinations, the Planning Board finds that the proposal meets the requirements of the Zoning By-Law, and by a vote of 4 to 0 in favor, accordingly, grants the Applicant and its successors and assigns as owner of the premises, a Development Plan Approval and Stormwater Management Permit subject to the following conditions:

- 1. This Approval is limited to the improvements as noted on the Approved Plan, and as may be conditioned herein. Any changes to such Plan must be reviewed and approved in accordance with the Bellingham Zoning By-laws. All such changes shall be reviewed by the Board for determination as to whether or not the changes are considered minor or major. If the Planning Board determines that any change to the plan is a major alteration to the Approved Plan, a public hearing shall be required for a modification to this permit. A minor change shall be reviewed and approved at a regularly scheduled meeting.
- 2. Prior to construction, the applicant shall supply the Town Planner and Building Inspector with a photometrics plan for review and approval. Any proposed exterior lighting shall be Dark Sky Compliant and deter any light spillover onto adjacent properties.

3. A timber guardrail shall be installed along the western boundary of the proposed paved parking area, to deter vehicles from driving into the proposed Bioretention Basin #1.
4. Prior to occupancy, the applicant shall coordinate the inspection of the driveway curb cut sidewalk transitions with the Building Inspector to verify conformance with ADA / AAB accessibility requirements.
5. Prior to construction, the applicant shall receive approval through the Bellingham Board of Health for the proposed on-site sewage disposal system.
6. The proposed stop sign located at the exit of the property shall be furnished with a "breakaway" post.
7. Prior to the start of construction, sediment and erosion controls shall be installed and be subject to the inspection and approval by the Town Planner and Conservation Agent.
8. Outdoor material and equipment storage is prohibited.
9. All proposed work shall be conducted indoors with the overhead doors closed to reduce any noise intrusion to abutting neighbors.
10. The hours of operation shall be Monday through Friday, 8:00 A.M. to 5:00 P.M.
11. Prior to the commencement of construction, the Applicant shall schedule a preconstruction meeting with the Town Planner and the Board's designated inspector. The Board's inspector shall be permitted to conduct routine inspections, as may be reasonably be determined by said inspector, while construction is ongoing relative to this permit and all corresponding Decisions for this Site.
12. Construction hours will adhere to §240-48 of the Zoning By-law.
13. All fencing to be installed on Site shall be constructed to allow for a six (6) inch gap from the ground surface to the bottom of the fence to allow for wildlife.
14. The Stormwater Management Operation and Maintenance Plan (O&M), dated February 25, 2025, included as part of the Drainage Report, is hereby referenced and made part of this decision. The Applicant shall permit the

Board or its agent to inspect the premises on reasonable notice to determine compliance with said O&M plan.

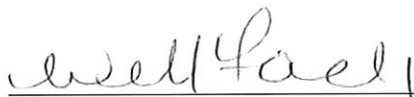

15. Phosphorous-based fertilizer shall not be used on the Site.
16. In accordance with the Bellingham Department of Public Works, any and all access and utility easements that may be necessary shall be in a form approved by Town Counsel prior to the issuance of the Certificate of Completion, such approval shall not be unreasonably withheld.
17. This Decision is binding on the Applicant's successors, assigns, agents, and employees. This approval shall insure to the benefit of and binding Vasilios Alexopoulos provided there is no change in use for the Premises. The Planning Board shall be notified in writing of any changes in affiliates and successors in title and additional users of the Premises.
18. Any change of use shall require a public hearing to either modify the existing Development Plan or to issue a new Development Plan permit.
19. The Applicant shall comply with §240-16B(5) and (6) regarding As-Built Plans and follow the policies of the As-Built handbook.
20. This Decision shall not be effective until it is recorded by the Applicant at the Registry of Deeds, with proof of such recording to be supplied to the Board and the Building Inspector.

D. RECORD OF VOTE

I vote to **APPROVE** the **211 SOUTH MAIN STREET DEVELOPMENT PLAN APPROVAL AND STORMWATER MANAGEMENT PERMIT**.

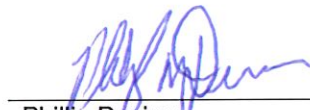

Bellingham Planning Board

March 27, 2025
