10 Mechanic Street
Bellingham MA 02019
Telephone: (508)627-2858

DEP #105-0979

DEP Comments

- 1.) The NOI Form states there is 1,740 sf of BLSF alteration while the narrative states there will be no alteration to BLSF. Please clarify and correct the NOI Form as necessary. 310 CMR 10.53(3)(o)(2)(d) requires compensatory storage shall be provided in accordance with 310 CMR 10.57(4) if there is fill to BLSF.
- 2.) MassDEP notes the narrative for this project states the "NOI will be amended to include all of the features that will be necessary to establish a permanent well site. This would include, but not be limited to, stormwater management features, water lines, utility lines, the permanent well, and the necessary controls and pumps (possibly in a small structure)." Typically, amendments are not appropriate to include new work beyond the scope approved in the Order and are for plan changes within the scope and limit of work. Please see Wetlands Program Policy 85-4: Amended Orders for additional information.
