Mr. DiMartino appeared before the Board to discuss options associated with the replacement of the underground gas storage tank at the DPW. Mr. DiMartino explained the gas tank is 24 years old and ground water is leaking into the tank. After multiple conversations with the Finance Committee relative to the replacement costs, which are estimated at \$280,000, it was determined to be less costly over a 25 year period to have our vehicle fleet purchase fuel at the State bid price from participating gas stations in Town. Mr. DiMartino estimated the fuel budget would increase annually by \$13,000 but the Town would avoid the capital expense associated with tank replacement.

On a Spencer/Martinis motion, the Board unanimously voted to abandon the gas tanks at the DPW and to begin purchasing gasoline off the State bid list.
