I THE APPLICANT SIGN MY NAME HERE(x)____________________________________ AND IN SO
SIGNING STATE THAT I HAVE READ AND UNDERSTAND THE FOLLOWING:

- One Water Service Application must be obtained for each single-family dwelling unit that will be connected to the Town of Bellingham Public Drinking Water Supply System (the System).
- No water meter will be installed until the building is secured with lockable doors and windows.
- No water will be turned on during the months of November through March unless the building has heat necessary to prevent pipes from freezing.
- All pipes, fittings, valves, and water meters that connect the building to the System must:
  - Meet the Bellingham Department of Public Works (BDPW) Specifications for Waterworks Materials
  - Be inspected by the BDPW, or
  - Be installed by the BDPW
    - If I chose to have the BDPW install the water service,
    - I will be charged for all materials and labor necessary to install the service from the water main to the building including: corporation (tap valve), pipe, curb stop (service isolation valve), ball valve (building shut off valve), meter(s) and outside reading box. Said charges must be paid to the Town Collector in full before the water meter(s) will be installed.
    - I am responsible for all excavation work including: trench safety, acquisition of street opening permit, street repair, traffic control, proper pipe bedding and backfill, site restoration, etc.
    - The total cost of the above service installation (including all materials and labor)
  - DPW before the Bellingham DPW will sign a Certificate of Occupancy:
    - Water Meter(s) must be installed, and
    - The Water User Information section of this application must be completed, if Type of Applicant is Builders or Others.
- Once the water service is installed, the property owner shall be responsible for all necessary maintenance of the water service from the curb stop (service isolation valve), to the Water Meter. (Property owners own and are responsible to maintain all materials that are on their property, both inside and outside the building.)
I grant to the BDPW, or its agents, the right to enter this property for the purpose of performing any work related to
the installation, inspection, meter reading, testing, cross connection prevention, maintenance, and any other purpose
associated with the BDPW efforts to provide safe drinking water to its customers. Said right of entry shall be in place
until such time as the water service is terminated.

I am responsible for making the next owner of this property aware of the requirements of this agreement.

All properties connected to the System must comply with the Town of Bellingham Water Regulations. Said
regulations to be adopted and amended by Board of Selectmen, or their predecessors, after public notice and hearing
process.

This application must be approved by the BDPW and all connection related fees paid before water service is
connected.

I must complete this connection within two years of the application or it will become void and I have no rights to a
refund of fees paid.

All water service connections and inspections require a twenty-four (24) hour notice. No exceptions.
